Hello, I hope you remember me.

Not sure if you're still teaching your beautiful pre-k class but I have some clients that are looking for the opportunity to meet you and have more information. My family loves you and always remembered how amazing and special you were.

Not sure if you know, but I opened a daycare in my home and I always refer parents to your class when the little ones are ready to leave my program. We miss you and I hope we can see you soon.
